

SJP-48/500W Solar Powered Pool Pump

- Power: 500 Watts
- Voltage: 48 Volts
- Outlet: 40mm
- Size: 560x270x370mm
- Weight: 17kg
- Solar Panels: 4x200 Watt
- Panel Size: 1580x808x40mm
- Panel Weight: 24kg
- Warranty: 2 years

Run your swimming pool directly from the sun, for free!

Have clean, clear pool water all day, every day, with no running cost at all. Pump whenever the sun is shining. In bright sun, it runs fast and pumps more water, on cloudy days it runs a little slower.

New, improved models for the 2018 – 2019 season. The latest models are easier to install and come with an advanced maximum power point controller – which optimises the pump speed for the sunlight conditions available.

Standard warranty is two years on the pump and the controller. You can extend the warranty to 3 years by buying the warranty extension package. The return to base warranty covers all manufacturing defects. It does not cover overheating damage to the pump from running it dry, or with a valve shut.

Pump Performance in Full Sunlight

Head		Flow		
Metre	Feet	m3/hr	gal/min	litre/min
15	49	4	15	58
12	39	7	31	117
7	23	10	46	173
5	16	14	62	233
